

STATEMENT OF PURPOSE

RS22999

This legislation will allow inmate labor to work for private employers in the production, harvesting and processing of perishable Idaho agricultural food products.

FISCAL NOTE

This legislation will reduce correction costs to the General Fund as deductions from inmate's pay will offset transportation, security, and other costs associated with this program. Also deductions will be made to satisfy court ordered restitution, fines, and other legal judgments such as child support. Remaining funds will be placed in a reentry fund and the inmate's personal commissary fund.
